INSTRUCTIONS

For Chadwick CALCULATOR

EXAMPLE: $11111 + 55555 - 33333 = 33333$

■ CLEAR FIRST:

Pull the clear lever out as many times as necessary until all indicator windows show 00000.

■ ADDITION:

Press the (+) control lever to the Left. Then push down on the push buttons once for each digit that you wish to add. Example: Push all push buttons once, the number 11111 will appear in the indicator windows; then add 55555 by pushing all push buttons five times each, the indicator windows will show an answer of 66666.

■ SUBTRACTION:

Pull the (+) control lever to the Right. Then push down on the push buttons once for each digit you wish to subtract. Example: To subtract 33333 from 66666, push all push buttons three times each; the indicator windows will show an answer of 33333.
